Discovery
Museum

Dear Parents and Caregivers,

Thank you for volunteering to chaperone your student's field trip. Your school group would not be able to participate in this experience without the help of volunteers like you! Please read through the information below to help you prepare for what to expect.

What to Wear: Make sure to dress in layers and sturdy shoes for comfort during both indoor and outdoor exploration, as the weather in Sausalito changes constantly. Museum activities can be messy – think water, mud, and paint – so make sure to wear clothes that can get messy.

Food and Drinks: The Bean Sprouts Café is located onsite at the Bay Area Discovery Museum and is open during museum hours. If you do not bring a lunch for yourself, the Café serves both coffee and meals. Please help us keep our site clean by keeping food and drinks outside.

Student Supervision: Students must be supervised at all times. Please help us keep your students safe by abiding by posted guidelines and directions from Museum staff. Please notify a staff member in a blue apron in case of injury or a student becomes separated from you.

Spread Out: Please be sure to spread out in the museum spaces with your group, to help improve everyone's experience. If you see that a room is already busy, lead your students to a different space and return later when it is less crowded.

Ask Questions: One easy way to engage students to ask them questions such as "I wonder what would happen if..." or "I wonder why this happened..." Asking questions like these allow children to develop problem solving skills and encourage creative thinking; just remember there are no wrong answers!

Have Fun: The Museum provides a variety of spaces, exhibits, and programs to explore and enjoy. We encourage you to have fun in these spaces by supporting students' hands-on learning and immersing yourself in the spaces as well.

Once again, we thank you in advance for helping to make this day of active, exploratory learning, enjoyable and memorable for both you and for all of the students in your child's class.

Sincerely,

School and Community Program Team
Bay Area Discovery Museum

Our mission is to transform research into early learning experiences that inspire creative problem solving.
