

Bay Area
Discovery
Museum

Dear Parents and Caregivers,

Greetings from the Bay Area Discovery Museum (BADM)! Your child's class will be participating in a field trip to BADM on

Field Trip Date and Time: _____

What is the Bay Area Discovery Museum?

The Bay Area Discovery Museum is a nonprofit children's museum with a mission to transform research into early learning experiences that inspire creative problem solving. Museum programming focuses on creativity development and STEM (Science, Technology, Engineering and Mathematics) education. For more information, visit our website at <http://bayareadiscoverymuseum.org/>

What will my child do at the museum?

Upon arrival, School Programs staff greets the group and guides your child's class into the museum. During some field trips, children and adults participate in STEM-focused programs led by School Programs staff. The field trip also includes free exploration of the museum's exhibits and programming.

How should my child dress for a field trip to the museum?

On the day of the field trip, please make sure your child wears sturdy shoes and dresses in layers that can get messy. The weather in Sausalito changes constantly, and museum activities can be messy – think water, mud, and paint.

How can you get involved?

In order to participate in this experience, we need your support as chaperones so that your class can safely explore the museum. **BADM requires a minimum supervisory ratio of one adult for every five students.** Please let your child's teacher know if you can volunteer for this field trip.

YES! I would like to chaperone on _____

No thanks, I can't chaperone this time.

Chaperone Name: _____

Child's Name: _____

We thank you in advance for helping to make this day of active, exploratory learning, enjoyable and memorable for both you and for all of the students in your child's class.

Sincerely,

School and Community Programs Team
Bay Area Discovery Museum

Our mission is to transform research into early learning experiences that inspire creative problem solving.
